

**PUBLIC NOTICE
PROPOSED UTILITY IMPROVEMENTS
FOR MARYLAND GENERAL HOSPITAL
ESD# 6238**

The Baltimore City Department of Public Works, in coordination with the University of Maryland Medical System (UMMS), is accepting public review and comments for a request to waive stormwater management quality control for utility upgrades adjacent to the Maryland General Hospital on Linden Avenue.

Notice is hereby given that the public is invited to comment on the request by University of Maryland Medical System (UMMS) for a waiver of Stormwater Management (SWM) quantity and quality control requirements for the Maryland General Hospital Utility Upgrade & Repair on Linden and Academy Avenues Project. This is a maintenance project. Comments on the requested Stormwater Management Waiver must be received by 5:00 PM on October 11, 2010 to ensure consideration by the Department

UMMS is proposing to relocate the existing overhead electric lines to be underground conduit. The proposed improvements include:

- Utility trenching in sidewalk and grass
- Installation of electric manholes and transformers
- Replacement of street lighting on Linden Avenue and Academy Avenue
- Associated sidewalk repairs

In order to meet 2010 Baltimore City SWM Ordinance requirements for the proposed improvements, a waiver for stormwater management water quality control is requested for the utility work. The project involves primarily utility work that will return the disturbed area to a predevelopment runoff condition.

Report

A copy of the Stormwater Management report may be obtained by calling and making a request to Johnson, Mirmiran and Thompson at (410) 316-2216, or by visiting the office during normal business hours. Please ask for Joe Kittner.
